The Organic Factory B.V.®

organic sweets

Introduction

The Organic Factory B.V. is a producer of organic confectionery from the Netherlands. For more than 25 years all products are made with a high quality standard with traditional methods.

Constant attention is paid to new organic trends but traditional recipes are so much preserved as possible. Expansion of the range will only be done when it fits within the organic targets.

The Organic Factory B.V. has a wide range of products.
Specialism are hard-boiled drops and lollypops without saccharose. Made from glucose syrup from corn and agave syrup with many different flavours.

The company is also specialized in gums which do not contain gelatine. So the gummy products are not only organic but they are also suitable for vegans!

In addition, The Organic Factory B.V. produces peppermint tablets which are 100% (!) organic. And organic sweet liquorice rolls are also one of our products.

Organic confectionery find their way to consumers by importers and wholesalers from all over Europe. Our own brand Eco-Sweets is a standard label, which we can produce in several languages. Starting in 2017 with a brand new design!
All our products are also available with a private label.

Please take a look in this catalogue to see all our organic products!
With kind regards,

The Organic Factory B.V.
